

The high quality Club Range features an elegant and professional design that is suitable for self service or behind counter appliances.

High Volume

The Club range dispenses high quality chilled, ambient and sparkling water for high volume hospitality and commercial settings.

Ice Bank

The unique Ice Bank Technology of the Club range allows it to continue dispensing chilled water in high ambient temperatures

Tap Options

Traditional lever-style taps that are mounted onto the required column for the desired combination of ambient, chilled and sparkling water

Safety features

Total hygiene is a priority, and for this reason, only certified food contact materials are used for all components in contact with liquid and great care is taken in assembling each product. This eliminated the risk of contamination and allows for easy cleaning and maintenance.
