

STREAM

CLUB

The high quality Club range features an elegant and professional design that is suitable for self service or behind counter applications.

Flexible footprint

The Club range comes in benchtop and freestanding versions and also has an option to be located under bench for maximum flexibility.

High volume

The Club range dispenses high quality chilled, ambient and sparkling water for high volume hospitality and commercial settings.

Ice bank

The unique Ice Bank Technology of the Club range allows it to continue dispensing chilled water in high ambient temperatures.

Tap options

From traditional lever-style taps that can be mounted on the front or side, the Club range can be tailored to any individual requirement.

Safety features

Total hygiene is a priority and, for this reason, only certified food contact materials are used for all components in contact with liquid and great care is taken in assembling each product. This eliminates the risk of contamination and allows for easy cleaning and maintenance.

Stylish finish

The Club range features stainless steel external finishes that make a real style statement with the mirror finish.
