

any freestanding

water chiller of its

type in Australia.

## Freestanding or wall mounted

As well as the standard freestanding model, the Fountain range also offers an innovative wall mounted model – one of the most compact cold water fountains available.

### **High performance**

The Fountain range includes High Performance Direct Chill technology features for maximum performance, hygiene and energy efficiency.

# **Safety features**

Total hygiene is a priority and, for this reason, only certified food contact materials are used for all components in contact with liquid and great care is taken in assembling each product. This eliminates the risk of contamination and allows for easy cleaning and maintenance.

# **Bubble tap**

The Fountain range models feature a standard bubble tap with the further option of a glass filler tap.

### **Stainless steel**

Both the freestanding and wall-mounted models in the Fountain range are finished with a robust stainless steel cabinet, basin and chrome plated fittings.

**FOUNTAIN DC60** 

FOUNTAIN TC8 • TC16 • TC30

**FOUNTAIN TC20W**
