WATER COOLER

Highly compact, modern and stylish; the Elite 80 possess a small footprint and unique cooling system

Freestanding Point of Use

The Elite Water Cooler is a revelation in quality, specification and elegance. An ideal point of use appliance, for the office, board room or reception area.

Compact

One of the most compact appliances of its type available, the Elite is the perfect choice, when limited space is available.

Only 250mm wide, 175mm deep and 1060mm high.

Advance Unique Cooling System

Elite dispenses Chilled and Ambient drinking water, without the use of an internal tank float system, which means less maintenance and reduces health risks.

Silver Turbo Clean System

An exclusive system is utilised which generates a water vortex on the internal walls whenever water is dispensed, preventing the formation of biofilm. The stainless steel refrigeration chamber is welded using silver, a material well known for its antibacterial properties.

Ergonomic

Though compact, the Elite has a dispensing area at a convenient height and features a top control panel; allowing for a more comfortable operation.

Elite 80

The stylish Elite 80 is one of most compact Point of Use appliances of its type currently available. Though possessing a very small foot print, it's big on technology and efficiency
